

CHEMTREC[®]

INCIDENT REPORTING

5800.1 Reporting Through CHEMTREC

Your trusted source to facilitate the completion and submission of 5800.1 reports in compliance with U.S. DOT regulatory requirements.

- Do you know when an incident needs to be reported to PHMSA?
- Do you have a reliable process for gathering information on your incidents?
- Do you have expertise in completing 5800.1 forms?
- Do you know how to properly submit and comply with retention requirements?

CHEMTREC can help! Our Incident Reporting solution can help bring you peace of mind.

CHEMTREC will:

Inform & engage by

- Providing a detailed report for every incident called into us where you are the Carrier
- Sharing our review of your incidents for applicability of 5800.1 reporting
- Initiating the 5800.1 reporting process to kickstart data collection

Guide & execute by

- Dedicating personnel to work with you throughout our proven process to confirm your reports are accepted by PHMSA without error
- Speeding up data collection by using existing incident details captured at the time the incident was reported to us
- Confirming your approval and using our verified submission process, so you can feel confident your 5800.1 report is complete, accurate, and submitted on time

Maintain & follow-up by

- Giving you 24/7 online access to your incident and 5800.1 reports including downloads for future analysis and auditing
- Proactively contacting you if PHMSA requires supplemental information or if changes are needed to the existing report
- Retaining reports for the required timeframe in a redundant environment

CHEMTREC provides concise, consistent reporting allowing you to better understand safety gaps, identify training opportunities for staff, and foster clear channels of communication in the supply chain - all of which support continuous improvement within your organization. It's a win-win!
